

APSNI ASIA PACIFIC
School of Neuroimmunology

3rd APSNICourse

ASIA-PACIFIC SCHOOL OF NEUROIMMUNOLOGY

14-16 FEBRUARY 2023
Westmead (Sydney), Australia

3rd APSNI Course Information

Sydney, 14 | 16 February, 2023

The International Society of Neuroimmunology (ISNI) has a proud history in providing a continuous education and training in the field of Neuroimmunology to our global community. We are pleased to announce the 3rd Asia Pacific School of Neuroimmunology (APSNI) in Sydney (Australia) from February 14 – 16, 2023. Our organizing committee plan to bring together face to face prominent scientists and physicians from the Asia Pacific region and all over the world. APSNI will take place in the brand-new Innovation Centre, collaborative initiative between the University of Sydney and NSW Health (Western Sydney Local health District) on the Westmead health precinct in Western Sydney. The Westmead health precinct is an ideal location in close proximity of the adult Westmead Hospital and the Westmead Children's Hospital, that will favour the interface between science and clinic.

Our audience will be scientists and neurologists, postdoctoral fellows and Higher Degree by Research candidates. APSNI will be followed by the Neuroimmunology Australia workshop on Friday February 17, 2023.

Main Topics

Day 1

- Novel techniques to interrogate neuroinflammation
- Cross-Over between neuroinflammation and neuroimmunology
- Immune cells at neuroimmunologically relevant sites/trafficking
- Neuronal dysfunctions in neuroimmunology
- Neuroimmunology and neurodevelopment

Day 2

- Bone marrow dysfunction in multiple sclerosis
- NK and other immune cells in stroke
- Platelets in neuroimmunology
- MOGAD: from discovery to translation
- Clinical neurology from natural history to diagnosis
- MRI Imaging and analysis

Day 3

- Psychoneuroimmunology
- Spinal cord injury
- Neurovirology
- Diagnostic criteria in neuroimmunology
- advanced on new therapeutics and their mechanisms of action
- effect of pregnancy and gender in neurological disorders including MS
- Multimodal RNAseq and flow cytometry analysis

Some of our guest speakers are:

- Wee Yong (Calgary, Canada)
- Francisco Quintana (Harvard, USA)
- Fu-Dong Shi (China)
- Qiang Liu (China)
- Roberto Furlan (Milan, Italy)
- Trevor Kilpatrick (Melbourne, Australia)
- Russell Dale (Sydney, Australia)
- Pamela McCombe (Brisbane, Australia)
- Jackie Orian (Melbourne, Australia)
- Marc Ruitenberg (Brisbane, Australia)
- Su-Yun Kim (Goyang, South Korea)
- other speakers from the Asia Pacific

Face to face attendees will get the opportunity to interact with our guest speakers and will also be able to present their work in mini oral presentations of their posters (Day 1 and Day 2).
